### An Ecotap type SLA-K and lamppost combined: The Ecotap SLM DUO

#### Lighting and charging in one

"the state-of-the-art" lamppost chargingstation from Ecotap®. An efficient and clean solution in e-mobility and lighting. Sustainable modes of transportation are growing in popularity, resulting in a rising demand for electric chargingstations in the Netherlands and Europe alike.

Ecotap® has teamed up to develop "the lamppost charger". An innovative and sustainable solution on the market for the optimal use of (public) space.

The innovative lamppost chargers are suitable for:

Public areas such as on-street parking  
Large car parks such as P+R and transferia  
Parking facilities at airports, business parks, holiday parks, etc
