

Release Notes V32.R33

Version information

Release date: 13-06-2024

Version: EVC50V32R33

Supported Hardware:

- EVC 4.22
- EVC 4.3x
- EVC 5.2 AC
- ECC1
- EVC 5.2 DC (CCS)
- EVC 5.2 DC (CHAdeMO)

Improvements

Dynamic Loadbalancing	
1	Implemented Dynamic Loadbalancing functionality for EVC5 & ECC1.
2	Added 3rd Energy meter data to the info field of the OCPP1.6j StatusNotification message for connectorId=0, when requested via a TriggerMessage.req.

OCPP1.6j compliancy	
1	Fixed FirmwareStatusNotification messages according to OCPP1.6j.
2	Fixed Bootnotification message handling according to OCPP1.6j.
3	Improved the Clock-Aligned meter value implementation.

Future Improvements

	Description
1	Resolve several issues for DC chargers.
2	OCPP1.6j compliancy
3	Improve stability of WebSocket connection.
